NEW Training and Testing of all language skills (Beginners, A2)

Workbook with Audio-CD (incl. answer key)

Training and model test practise for all 4 language skills. All tasks are derived from a pool of exercises designed by an official board of test experts and have been piloted and tested with over 4.000 students. Additional students' guide sheets contain tips for the different task formats, as well as useful phrases for the writing and speaking exercises. This rich material can be integrated into classroom lessons. However, students may also use the workbook for individual study.

64 pages, softback, CD

Teacher's Manual

The accompanying teacher's manual offers short task profiles listing the level of difficulty, the test type as well as the text format and text length. The task commentary explains the test items and contains transcripts, answer keys and guidelines. The speaking and writing tasks are illustrated by *rating scales* and *assessment grids* (including examples of students' answers along with teacher's commentary).

NEW Training and Testing for Oral exams (Intermediate, B1)

Copymaster with CD-ROM and Picture Bank

The testing of speaking skills focuses on core aspects of oral communication such as fluency, pronunciation, adequacy of vocabulary, grammar and style. In addition, students are expected to demonstrate sociolinguistic competencies while interacting with their partner. A broad range of topics and task formats provide ample opportunity for practising and testing students' speaking skills: general conversation, responding to visual prompts, simulated situations, role plays, presentations, mediation.

NEW Training and Testing for Oral exams (Advanced, B2-C1)

Copymaster with CD-ROM

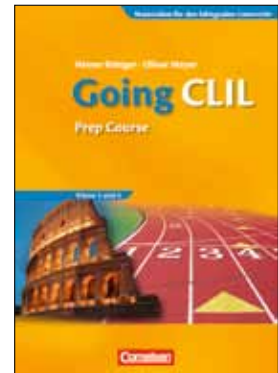

The testing of speaking skills focuses on core aspects of oral communication. In addition, students are expected to demonstrate sociolinguistic competencies while interacting with their partner (flexibility, turn-taking strategies). A broad range of topics and task formats provide ample opportunity for practising and testing students' speaking skills: general conversation, responding to visual prompts, simulated situations, role plays, presentations, mediation. A reference section contains useful phrases, assessment sheets and model answer keys.
