

Sunshine Early Start Edition

What makes a course easy for teachers to teach? Teaching what you have already learnt yourself! Add reliability, attainable teaching aims and time saving components and you have the ideal course which includes:

- Universally loved and known stories from children's English literature.
- Authentic but simple language input which speeds up understanding and communication.
- Humorous content which awakens the pupils' delight and enthusiasm.
- Carefully planned lessons with balanced phases of teaching, language practise and skills training.

The familiarity of the contents lightens the teaching load for all non-native teachers of English. Realistic teaching goals mean successful lessons in mixed ability classes. All units follow the same clear, systematic structure both to help the teacher and create a familiar setting for the pupil.

The course ties in with Common European Framework guidelines: It includes cross-curricular content and provides regular opportunities for self-assessment and the creation of portfolios.

This four-level beginner's course enables teachers to prepare effective English lessons. Learners can develop their listening and speaking skills from an early age. The familiar and age-group related themes in each volume are repeated and extended throughout the course. Language work is complimented by well known fairy tales for the youngest and amusing stories about a typical group of British children in the last two volumes.

Sunshine offers a great range of time-saving, beautifully illustrated components.

- Large posters to illustrate the stories with smaller versions for each child in their materials

- Videos of the stories in each volume – a most effective listening and viewing experience with a medium beloved by all young learners.

- Workbooks with a variety of exercises and activities which include a collectable set of picture cards for learning vocabulary in each volume

- Pupil's Books for stages 3 and 4 offer illustrated scenes for language work, cartoon versions of the stories and board games.

- Authentic listening CDs with recordings of all the songs, stories and dialogues

- Teacher's Books with steps-by-step lesson plans for the teaching year including a teaching menu of new words and structures for each lesson

NEW Sally
A four-part primary English course

Sally stands for a course that is organised in small steps, contains detailed lesson plans and focuses on the development of communicative skills. What makes Sally so attractive for teachers is that teachers who are just starting to teach or don't teach English regularly will find in-depth information for each lesson which will help them to overcome beginners' difficulties and give them confidence. Experienced teachers on the other hand will find a wide range of ideas which they can individually put together. What makes Sally so attractive for children is the fact that it uses motivating, varied and many authentic stories, rhymes and songs as well as exercises that keep the fun in learning a foreign language.

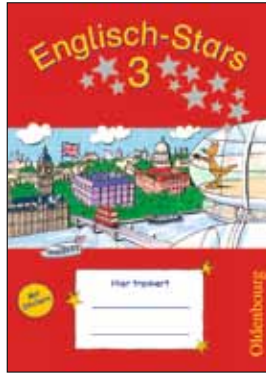

Components:

- Activity Book with exercises to strategically work on vocabulary development as well as writing skills. Includes audio-CD with all songs and rhymes.
- Pupil's Book with stories which promote listening skills, funny comics that promote reading skills, as well as songs and rhymes that motivate children to sing along and speak.
- Teacher's manual with detailed lessons plans, great number of additional masters, portfolio, two audio CDs, ...
- Picture cards to visualize vocabulary and support storytelling
- Word cards
- DVD with animated stories, includes lesson plans and masters

For example:

Activity Book 1	
40 pages, softback, with Audio-CD

NEW English-Stars
Practice books with reward stickers and self-study key

These English trainers cover all important topics of English in primary school and can be used independently of a textbook wherever extra practice material is needed – whether in class or at home. A wide range of motivating exercises revise vocabulary and train reading and writing skills in a way that keeps the fun in learning a foreign language. Students can work on their own and the integrated key makes it easy for them to check their answers.

Two special features are the picture dictionary and comics with Sally the kangaroo. The picture dictionary contains the vocabulary of all topics and can either be used alongside the exercises or as a general reference. The comics not only train reading skills but furthermore show students how much they already understand and promote continuous reading in the foreign language.

To make these trainers even more motivating and fun, the children can place a star sticker for every completed topic and for every read comic on the back inside cover. Once the last star is at its place, a well known sight will shine in their light.

NEW Lextra Picture Dictionaries for children with TING

These first picture dictionaries are aimed at young children taking their first curious steps into other languages and cultures. The A-Z section of the dictionaries cover about 800 typical everyday items from everyday life for primary-age kids. The thematic sections cover important sections such as verbs, prepositions and family relationships, colours, seasons and holidays. TING printing technology also makes it possible for learners to hear each new vocabulary item: just touch each entry with the TING infra-red sensor pen and listen to the correct pronunciation. To add to the fun, children can go on a treasure hunt to find the words with hidden sounds attached: no CD- or MP3 player necessary!

Other languages available: Spanish, French, Italian, Turkish, Polish

108 pages, hardcover,
 numerous illustrations, TING-Audio files
